

# AFRICAN DRUMMING EXPERIENCES

**Energising, Inspiring, Inclusive  
& Great fun!**

Are you looking for a team building experience that stands out, creates a real buzz and that **PEOPLE WILL LOVE?** ... You've found it!

Drumvoice provides a creative and highly engaging approach to team-building and training – turning your team into an AFRICAN DRUMMING BAND.

## **Perfect for:**

**team-building days  
team mergers  
conferences  
celebration events**

## **DRUMMING PACKAGES**

### **The Energiser: 40mins - 1hr**

A kick start for the day, an after-lunch revitaliser or a grand finale – our energiser package will inject fun and vitality into your training day or conference. Short drumming sessions are great ice-breakers and are an effective way to get people ready for learning.

### **Fun Drum Intensive: 2 - 3hrs**

This longer session includes the "Rhythm Challenge": The group is divided into smaller teams to compose their very own interactive percussion pieces to perform back to the whole group. Highly entertaining, this activity involves negotiation, leadership, presentation skills, and working imaginatively and creatively together.

### **The Real Deal: 4hrs+**

A whole day event presents the greatest opportunity for group development. People explore the many instruments and roles within an African drumming band, ensuring a deeper experience of working together as a team. Groups are given an array of challenges to build their skills, working towards a stunning performance at the end of the day.

We have a long and proven track record with private and public sector clients including: **Microsoft, Virgin, Barclays, Cadbury, NHS & University of Birmingham.**

***"An amazing experience and a fantastic tool to use within training! A great way to break down barriers and improve communication on all levels"*** - Emma Jennings, Orange

***"A great team-building event – full of atmosphere and fun!"*** - Alec Patterson, Barclays

## Other Activities - for larger groups and events over 2hrs

### Drum and Sing Spectacular

This magical combination creates a real sense of occasion for the whole team. Working with UK renowned singers, the Drumvoice team orchestrates an unforgettable experience in which groups are introduced to the beauty and fun of African harmony singing, and learn the skills of accompanying the singing as a drumming band

### Samba Sensation

It's loud, colourful and direct from the carnivals of Brazil! Samba drumming gets people swinging to the irresistible groove of the Latin beat with an exciting array of instruments. The exhilarating sound and great sense of achievement make it an experience people never forget!

## Issue-Based Training

The skills involved in the African Drumming Experience – including good communication, effective leadership and working as a team - echo many of the skills required in the workplace. Drumming therefore offers an exciting platform for developing individual skills and group dynamics to build strong and motivated teams.

We bring our own highly skilled trainers and can collaborate with your trainers to explore:

**Team working | Leadership | Presenting skills  
Assertiveness | Emotional intelligence | Stress management**

## About Drumvoice

Founded in 1998 by African Drumming expert, Sarah Westwood, Drumvoice has built a reputation as a professional and inspiring company, providing drumming experiences for organizations across the Midlands and the UK.

We love what we do and it really shows in our work. Our team of artists are passionate, experienced and exceptional facilitators, stopping at nothing to provide first class training and events.
